

Funding Assistance Appeal, help us continue our work!

The MGHRO

football club has been aiding the support, integration and acclimatisation of migrants and refugees since 1994. The sudden withdrawal of funding has disturbed the ability for the organisation to not only fulfill its mandate of social inclusion and migrant and refugee integration through sports, it has left destitute the migrants, refugees and asylum seekers further entrenching the already lived traumatic experiences of leaving their home countries.

The absence of

funding has caused the standstill of organisation activity aimed at supporting the migrants and refugees as, which means the refugee crisis is compounded and further entrenches the stigma of refugees being a social and economic burden to their new communities. The Organisation no longer can provide a safe space where the refugees and migrants can release their anxiety and interact in social settings, through competitive and social sport.

The lack of

funding has put stress on the organisation staff as they have to now carry the extended cost of working on the organisation personally for the few activities still running and going to work. The staff is committed to the cause of the organisation and the people who need the assistance from the organisation, however the added cost burden creates tension on the staffs ability to provide the best possible assistance to their client base.

The tension in

Hungary has created a climate of fear for the migrants and refugees to be sent back to their home countries in which they have fled, further alienating and traumatising their presence in the country and in their current respective communities. Our inability to aid in decreasing these fears and tensions through our interactions and support to refugees will ensure that the narrative around migrants and refugees in the Hungarian community will become worse and a self fulfilling prophecy. While the law is intended to stop illegal immigration, in fact it is crushing the civil society: it deprives the NGOs of the democratic capacity to act in order to solve a problem that the state is not capable to.

The MGHRO would implore the public extended European communities for your financial assistance through contributions and donations to enable the continuance of the organizations work in supporting the refugee and migrant community in Hungary.

If you would like to help the please see below the Organizations bank Details.
