

What we do

Legal counseling

Our legal experts offer free administrative legal aid and advice every month to approximately 20 refugees and migrants - mostly on residence permits, working visa, family reunification. We take care and accompany our clients for the entire duration of their proceedings or trials, helping with filing applications, appointments with the Immigration Office, possible irregularities in their cases. In case of appeal we represent our clients to court hearings, also providing for translators.

Prisons&Camps visits

Since 1993 our organisation regularly visits Hungarian refugee camps and prisons hosting foreigners, trying to offer legal advice and providing for extra services, like giving information, delivering packages, books in native languages, support, keeping contacts with the families, and monitoring the respect of people's rights.

Public events & cultural programmes

We want to reach as many people as possible through our cultural programmes and conferences. Since 1994, for instance, we take part and have a great time in organizing the famous African Festival in Budapest –check our newsletter for pictures! With these activities we involve as many participants as possible to show and share our experience and knowledge of African culture, traditions, values, music, dance and food, trying to promote the idea of an inter and multicultural society.

Language courses

Since 2006 our volunteers have been teaching Hungarian language classes for migrants and refugees: excellent English is not enough, being able to communicate in the local language is of fundamental importance for integration. We can also refer our clients to other schools in the city, write us for more information!

Training programmes: promote tolerance among students

Since 2003 we started the „Show red card to Racism” campaign in Budapest High Schools, with the aim of fostering tolerance and combatting discrimination among students. Our trainers and educator organise roundtables, lectures and public presentations about the Roma community, Africa, and Human Rights. Contact us for our tool kit!

Sport programmes: the African Stars Football Team & the „Football against Racism” campaign

The international language of sport is one of the most effective means to overcome communication difficulties among different nations. We have therefore designed several programs to promote tolerance by using sport as a mean to accomplish this end, especially among young people. Our African Stars football team has been a proud participant of several national and international tournaments, winning a number of prizes, including first place in the World Cup Against Racism tournament held in Italy in 2006. African Stars players have then joined the international “Football Against Racism- FARE” program and network.
